EDUCATION

Master of Computer Application 2018 - 2021

A.V.C. College of Engineering

Bachelor in Computer Application 2014 - 2017

Dharmapuram Aadhinam Arts College

EXPERTISE

- Python
- Frameworks: Odoo, Frappe(ERPNext)
- HTML/ CSS/ JavaScript/
Jinja template Object Oriented
- Programming (OOPs)
- GitLab
- SQL
- Databases: PostgreSQL/MariaDB
- XML/ JSON
- Agile development
- Ubuntu operating systems
- Libraries: NumPy, Pandas, Beautiful Soup
- Editors: VSCode, Pycharm

SKILLS

- Leadership
- Design Thinking
- Web Design
- Problem Solving
- Type-writing
- Strong Communication

LANGUAGE

- Tamil
- English

PROFILE

As a Python Developer with experience working with Frappe framework and Python programming, I have a strong background in designing and developing high-quality software solutions that meet the unique needs of businesses. I have successfully built and deployed scalable applications that have streamlined business processes and increased efficiency. With custom applications and integrations that seamlessly integrate with other systems.

I have contributed to the Frappe open-source community, providing bug fixes and improvements to the framework. With my knowledge and experience in Python development and the Frappe framework, I am confident in my ability to deliver innovative solutions that meet and exceed the expectations of businesses.

WORK EXPERIENCE

Ajax Media Tech

Programmer Analyst - ERPNext Application

Jul 2021 - Present

- Design and develop custom ERPNext applications using Frappe framework.
- Customize existing ERPNext modules to meet client's specific business requirements.
- Write high-quality Python code that meets industry standards and best practices.
- Collaborate with cross-functional teams to gather and analyze business requirements.
- Perform software testing and debugging to ensure high-quality deliverables.
- Maintain documentation of the software development lifecycle.
- Participate in code reviews and contribute to continuous improvement of the software development process. Provide technical support and troubleshooting assistance to end-users.

DLK Technologies

Python Developer Intern - ERPNext Application

Mar 2020 - Apr 2020

- Partnered with company mentor to learn best practices in software design.
- Collaborated with other developers to identify and alleviate number of bugs and errors in software.
- Wrote technical documentation for new Software in Development.

Accomplishments

- Successfully developed and deployed a custom ERPNext application that streamlined client's project management process, resulting in a 20% increase in efficiency.
- Customized the sales module of the ERPNext application for a client in the retail industry, resulting in a 15% increase in sales.
- Contributed to the Frappe open-source community by providing bug fixes and improvements to the framework.

ODOO Modules

- Worked on modules like Sales, Accounting, Lead, Human Resource, Ticketing, Reporting.
- Generated many reports using libraries of python with SQL queries for the Sales Order and Sales Invoice.
- Using Xlsxwriter and Xlwt library CSV files were created for the modules Accounting and CRM.
